

**Dependent:**

La la la la la

La la la la la

Jesus didn't go it alone  
He had people to love on  
Every step of the road

"No man is an island"  
We have all been told  
Tell me why do we try  
To live as if we didn't know?

We are designed to be  
With one another  
Living in community  
So let's come together

This life is complicated  
None of us could ever make it  
On our own  
God gave us dependent souls

That's just how we're created  
You and I could never make it  
On our own  
God gave us dependent souls

La la la la la

La la la la la

People in the body of Christ  
We must learn how to function  
Together side by side

No man is an island  
Set aside your pride  
We are made to stay  
Connected to each others' lives

We are designed to be  
With one another  
Living in community

So let's come together

This life is complicated  
None of us could ever make it  
On our own  
God gave us dependent souls

That's just how we're created  
You and I could never make it  
On our own  
God gave us dependent souls

Can you imagine the day  
when we are one?  
United to pray  
For the kingdom to come

To go and proclaim  
What Jesus has done for us  
Let's come together

This life is complicated  
None of us could ever make it  
On our own  
God gave us dependent souls

That's just how we're created  
You and I could never make it  
On our own  
God gave us dependent souls
